ARÉ MARBLE

# Champagne Wave

Champagne Wave Aré Marble brings a unique sophistication through nuances of blue, yellow, and gold, which light up in a perfect soft way. With tenuous and parallel veins, its visual confers minimalism and adaptability to diverse environments, and its composition of minerals guarantees a hard material, with high resistance, low porosity, and low water absorption.

**Champagne Wave** symbolizes the look of this marble, which brings the strength and sovereignty of a wave and, at the same time, the softness and luminance of a champagne.

- **COLORS**

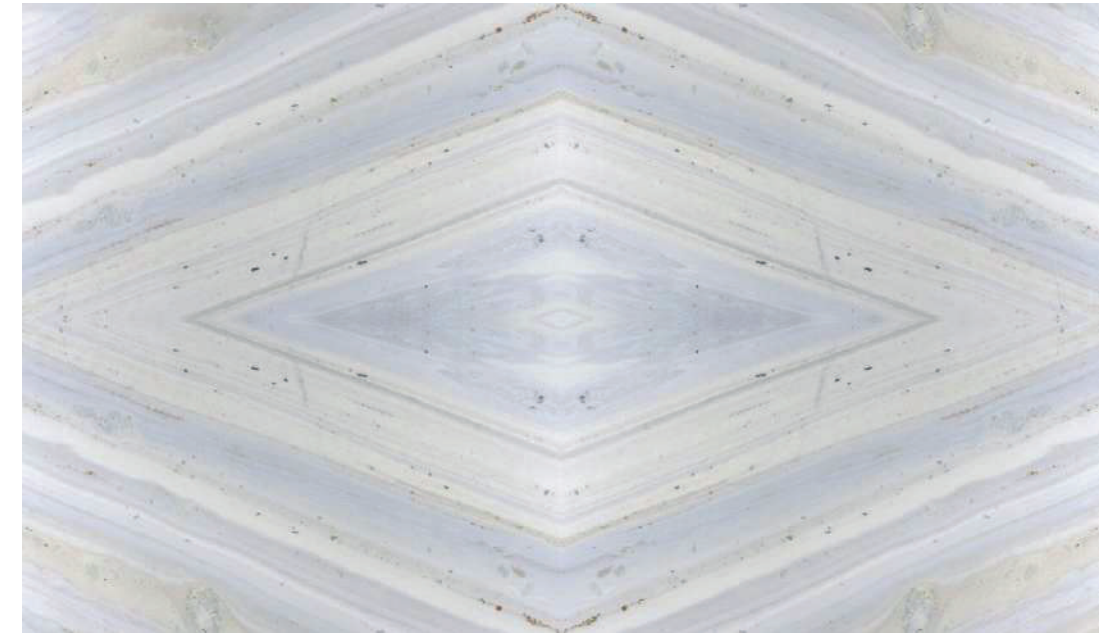

Light blue, soft yellow and gold.

- **COMPOSITION**

Dolomite, quartz and calcite.

- **ORIGIN**

Aré Quarry, Rio de Janeiro.
